

MARU[®]MASU

Stone Picker Model P

Removing every bit of pebbles, bolts, nuts, and others mixed in brown rice, white rice, husks, and buckwheat through gravity sorting

- **The tank can be easily opened, facilitating cleaning the wire mesh.**

- ▼ **During operation, pebbles, bolts, and nuts accumulate in the triangle space (stone space) and are never discharged with sorted rice.**

- ▲ **None of pebbles and other matter accumulated in the triangle space (stone space) are discharged unless the stone discharge shutter is opened.**

- ▲ **Accumulated pebbles and other matter are discharged by opening the stone sorting shutter.**

Specifications

Size(mm)	H743×W345×L537
Efficiency	300kg/h

The specifications and the outlook of the machine might be changed without a previous information for improvement of it.

The high-speed pneumatic separation system constantly stabilizes air pressure with the powerful fan to remove little stones.

Even for delicious rice the taste may decrease by half, if stones get mixed in. MARUMASU helps you remove every bit of foreign matters from rice, whether you sell or eat at home. Please help yourself to some **safe rice**.
